

## IN THE WORLD OF SPORT

### DAREDEVIL AUTO PILOTS SET FOR SATURDAY RACES

The greatest array of speedway talent ever assembled in the Southwest, including three dirt track champions, will do battle over the Arizona state fair track Saturday in a battle for world's dirt-track supremacy.

Never in the history of automobile racing in this state has a program of such excellence been offered racing enthusiasts of this state. A half dozen of America's best known and most noted drivers are entered in the different events and these drivers will match skill and daring with professional of the Southwest.

Tommy Milton, holder of the world's dirt track record for 100 miles, is coming back to defend his title here against two of the most noted dirt track drivers in the world. Milton also holds all world's records from one to 25 miles and has ridden faster in an automobile than any other man alive.

Eddie Hearne, former holder of the 100-mile dirt track record, will drive in competition against Milton in an effort to regain his laurels. Hearne broke the old world's record at the 1919 state fair and Milton, in turn, bettered Hearne's mark over the state fair course a few weeks ago.

Ira Vail and his big Duesenberg arrived in Phoenix Monday morning, coming directly from the East, where he won the title of world's dirt track champion during the past season. Vail was the most successful pilot in the East this season over the dirt speedways and comes to Phoenix to uphold his laurels against open competition in the 100-mile free-for-all event Saturday.

Tommy Milton will drive the Rowe Special in the races here. This is a Duesenberg car, formerly the property of Milton, so that he is thoroughly acquainted with its many little "tricks." Considerable friendly rivalry exists between Vail, Milton and Hearne and a real speedway battle can be expected when this trio hooks up here next Saturday.

Eddie Hearne is bringing his big Stutz speed wagon to Phoenix, determined to even matters with Milton. Hearne feels that he must avenge himself Saturday, as it was his world's record for the 100 miles which Milton smashed here a few weeks ago. Hearne can be depended upon to drive "her until the axles melt" if necessary to outdistance Milton and Vail in their duel for dirt track supremacy at the state fair grounds.

Crosby is also bringing a Stutz car, a sister to the one to be driven by Hearne. These two cars are considered among the five fastest in the United States.

### SALINAS JACK IS READY FOR FIGHT WITH H. WRIGHT

They found him!

Jack Robinson, the diminutive welter from Salinas, Cal., was located Sunday night in an express shipment of Kewpie received by the carnival company. Kewpie Robinson is trim and full of "pep," with the same old confident smile that refuses to wear off. His manager, Jack Russell, also reported Sunday evening bringing with him two classy youngsters who will work in the preliminary events. Joe Brown and Frankie Munroe. Brown is slated to battle with Billy Alger and Munroe will do the honors with Kaysee Smith of Globe.

Robinson worked yesterday afternoon with Ralph Pena and Jow Brown, going through a hard workout to test his wind for the ten-round route. Russell says Jack is fit for the seige Friday night regardless of how fast the Columbus Thunderbolt steps. The knock 'em out reputation of Hardlocking Wright does not bother Robinson's confidence in his ability to win. Jack says the harder they hit, the quicker they stop. Jack evidently believes in going after Wright from the onset. Wright has the same ideas so the fans should see a fast and furious fight while it lasts.

Wright worked yesterday with Cyclone Briggs of El Paso and Battling Scotty of this city. Briggs looks like a real fighter himself and he gave Wright plenty of work while the training stunt lasted.

Both main event fighters will work out this afternoon at 3 o'clock. Wright will work at Tally's arena and Robinson will work at Lewis training quarters on East Washington street. Spaw and Alger are also booked to work this afternoon.

Kaysee Smith arrives in Phoenix today ready for his fight with Frankie Munroe. Frankie arrived with Jack Russell's stable Sunday evening. Cyclone Briggs of El Paso, now working with Hardlocking Wright, has been matched with Ralph Pena, formerly of Ray and more recently from the Vernon arena. Briggs and Pena are both classy fighters with plenty of punch. They will rival the main event for action during the four rounds booked in the semi-final.

Billy Alger's opponent will be Joe Brown, also of Vernon, and Battling Scotty will take another whirl at Mack Spaw.

The Kaysee Smith-Frankie Munroe bout is a special number and the curtain raiser will bring together Pancho Mendoza and Sailor Brown of El Paso. Twenty rounds of preliminary fighting in addition to the scheduled ten-round main event is sufficient attraction to pack the stadium when the opening song sounds Friday evening.

With acknowledgments to R. C. B.

But a good wheeze-  
I'll leave it to you

I LOVE the ladies.  
BUT LIKE most men.  
I OFTEN guess wrong.  
ON WHAT will win.  
A SMILE from them.  
I ALWAYS say.  
IT'S BETTER to laugh.  
THAN EVER to worry.  
SO ONCE, when.  
THE DAM broke, and.  
A FLOOD hit town.  
I THOUGHT I'd just.  
CHEER UP my wife.  
AND SO I said.  
"IF THE worst comes.  
YOU CAN float down.  
THE RIVER on.  
THE FAMILY music-box.  
AND I'll accompany you.

ON THE piano.  
WHICH WAS all wrong.  
POOR HUMOR, she said.  
WAS OUT of place.  
IN TIME of danger.  
SO KIPLING was right.  
"A WOMAN is only.  
A WOMAN, but a good cigar.  
IS A smoke;" only.  
HE SHOULD have made it.  
MY CIGARETTES because.  
YOU'RE BOUND to get.  
A SMILE from them.  
THEY ALWAYS "satisfy."

TAKE the silky, tender leaves of choicest Turkish; blend them with the best Domestic tobacco that money can buy—blend them in the exclusive, can't-be-copied Chesterfield way—and you get a "smoke." Yes, and something more—you get a cigarette that honestly "satisfies."

One of the speed marvels who will compete in the auto races at the fair grounds Saturday afternoon.

### Gilbert Quince Beat Chandler By One-Sided Score

In the first basketball game of the 1920 season the Gilbert high quintet defeated the Chandler high school team by the decisive score of 29 to 8 at Gilbert Saturday evening.

The game was fast and hard fought through both halves, but Chandler was unable to get through the Gilbert guard.

Last year the Gilbert team was one of the fastest basketball organizations in the valley, but this year Coach Bied was forced to organize his team from new and inexperienced players.

As only one member of last year's team is back for this season's play. However, Gilbert is bent on making a hard fight for the valley championship and a schedule will be arranged with the leading Arizona teams.

### Baseball Meeting Called For 7:30 o'Clock Tonight

All members of the Phoenix Greys baseball club are requested to attend a meeting called for 7:30 o'clock this evening at 113 South First street.

The meeting has been called for the purpose of discussing the prospects for winter baseball and to determine which outside teams will be booked to play in Phoenix during the coming months.

The Greys promise the best baseball aggregation that has represented Phoenix in several years. The boys are interested in the game and the fans are demonstrating their interest by turning out to the games.

The meeting this evening is the first of a series of meetings to be called during the winter to familiarize the players with the business side of the club and to get together on important decisions of the directors.

Manager E. D. Perry is well pleased with the work of the men in the first two games and he has every confidence the end of the season will find the Greys the fastest team in the Southwest.

### Georgia Tech And Center College May Not Play Next Year

ATLANTA, Ga., Nov. 8.—Georgia Tech, and Centre college may not meet on the football gridiron next year. Dr. J. B. Crenshaw, athletic director at Tech, declared today in announcing that he had sent a telegram to Professor Frank Rainey, faculty chairman of athletics at Centre, asking whether newspaper articles criticizing the playing of the Tech team in the recent game between the two institutions "represent feelings and opinions of your college."

### Elimination Series To Determine Benny Leonard's Opponent

NEW YORK, Nov. 8.—Selection of six lightweight boxers to fight through a series of elimination bouts to decide which will meet Benny Leonard for the lightweight title here on Nov. 26 was the subject of a conference today between Tex Rickard, promoter, and Billy Gibson, Leonard's manager.

### HOW FIRE FIGHTERS ARE FED

Fighting a forest fire is the meanest game in the world. It takes real men with well-laid plans to buck it successfully. Getting the fire under control is but one of the big problems. Feeding the fire fighters is of equal importance. Hundreds of fires break out each year in the most inaccessible parts of the national forests, especially in the Western states. Some start from lightning; others from camp fires carelessly left unextinguished by hunters and fishermen. Every one of these fires is fought by forest service officers until it is completely out, regardless of whether it takes a day, a week or months. The bigger the fire, the greater number of men required to control it. Frequently twenty-five or fifty, or even 100 or more, fire fighters are used on a single fire, where there is nothing but a trail leading to the scene of the conflagration. The men can usually walk or ride to the fire camp, but the great difficulty is to transport the heavy, cumbersome outfit needed for cooking and for feeding such a crowd. Officers of the Rocky Mountain district have solved this problem by inventing a nested cooking and mess outfit, which is not only complete in every detail, but also compact and light in weight. The thirty-man outfit, commonly used on the national forests, consists of two units packed in a tin and a galvanized-iron boiler, each 26x12 inches in size. The total weight of these units has been reduced to 160 pounds, and they are balanced so that the whole outfit can be packed on one horse, with one boiler slung from each side of the pack saddle. Considerable ingenuity was required to get all the utensils and dishes needed in cooking and feeding a crew of thirty men into these two boilers. By careful nesting, however, this was accomplished. The boiler also serves as a cooking utensil and the cover as a dishpan. The second unit is housed in a galvanized-iron boiler which is not used for cooking, but serves for washing clothes or heating water, the cover being used as a washpan. Wallace Hutchinson, in Popular Mechanics.

### BOX FOR OVERSHOES

A handy place for overshoes is a box underneath the back doorstep. The boards from the step may be taken up, cleated and hinged, and a box to fit placed beneath the step.

I REMEMBER YOU 'WAY BACK A MILLION YEARS AGO! YOU'RE THE MILLION THAT RAISED SUCH A CHATTER AGAINST US LEARNING TO WALK ON OUR HIND LEGS!!!

**SHORT SKIRTS AND ACCIDENTS**  
One Tom Flinn, who failed to give his address, and whose philosophical musings are a bit ungrammatical, wrote Mayor Hyman recently, giving a more or less valuable suggestion for the reduction of motor car accidents. His letter reads:  
"Dear Sir: There has been a lot of talk in the newspapers about your

wanting the automobiles to stop killing people. It ain't the automobile fault. The trouble ain't there. Make the women folks quit wearing dresses so high. That's the trouble. Men walking on the streets and driving cars can't keep their minds on their jobs. They can't look two directions at once. Yours truly, Tom Flinn."
